

Classification Report

BASEC Client **Shenzhen Biadi Technology Co., Ltd**

Report No. **KCPR1206-2 Classification**
Number of pages in this Report: 6

Issue Date **26 April 2017**

Items Tested 1 sample of Communications Cable

Specification(s) BS EN 13501-6:2014

Authorised by: I McGuinness

Laboratory Manager

Issue Date: 26 April 2017

This Classification Report does not represent type approval or certification of the product. This Classification Report shall not be reproduced except in full, without written approval of the laboratory.

BASEC Report No: KCPR1206-2 Classification

Introduction

This classification report defines the classification assigned to the product, Copper Communication Cable, in accordance with the procedures given in BS EN 13501-6:2014

CLASSIFICATION OF REACTION TO FIRE FOR ELECTRIC CABLES IN ACCORDANCE WITH BS EN 13501-6:2014

Sponsor: Shenzhen Biadi Technology Co., Ltd
Places of Manufacture: Shenzhen Biadi Technology Co., Ltd, 1-5F of Block No 2 Tonglixing Industrial Area, No 8 of Lanzhu East Road, Pingshan New District, Shenzhen, Guangdong 518118, China
Prepared by: British Approvals Service for Cables, Presley House, Presley Way, Crownhill Milton Keynes, MK8 0ES, United Kingdom
Notified Body No. 2661
Cable Family Name: U/UTP Copper Communication Cable
Classification Report No. KCPR1206-2 Classification
Issue Number: 1
Date of Issue: 26 April 2017

This classification report consists of 6 pages and may only be used or reproduced in its entirety.

BASEC Report No: KCPR1206-2 Classification

Details of classified product

General

This classification report defines the classification for the power cable family, Copper Communication Cable in accordance with the procedures given in BS EN 13501-6:2014.

Product description

The cable family Copper Communication Cable is described in 'Sample details' below.

Traceability

The test samples supplied by the client and received by BASEC on 31 January 2017.

Sample details

Parameter	Details
Test sponsor	Shenzhen Biadi Technology Co., Ltd
Manufacturer of sample	Shenzhen Biadi Technology Co., Ltd
Place of manufacture	1-5F of Block No 2 Tonglixing Industrial Area, No 8 of Lanzhu East Road, Pingshan New District, Shenzhen, Guangdong 518118, China
Cables submitted for test	
U/UTP Cat 6 PVC 23AWG	4 pairs of HDPE insulated copper conductors, PE cross separator, rip cord, PVC sheath: 5.9mm OD

BASEC Report No: KCPR1206-2 Classification

Reports & results in support of this classification

Reports

Name of Laboratory	Name of test sponsor	Test reports Nos.	Test method/field of application rules
BASEC	Shenzhen Biadi Technology Co., Ltd	KCPR1206-1	BS EN 60332-1-2:2004 + A11:2016

Results

Cable	Parameter	No. tests runs	Results	
			Continuous parameter	Compliance with parameters
U/UTP CAT6 PVC 23AWG	H	1	93mm	$\leq 425\text{mm} = E_{ca}$ compliant

BASEC Report No: KCPR1206-2 Classification

Classification and field of application

Reference of classification

This classification has been carried out in accordance with BS EN 13501-6:2014

Classification

The copper communication cables in relation to reaction to fire behaviour are classified:

E_{ca}

The format of the reaction to fire classification for electric cables is:

Fire Behaviour		Smoke Production				Flaming Droplets			Acidity	
E_{ca}	-	-	-	,	-	-	,	-	-	

Reaction to fire classification: E_{ca}

The classification assigned to the products in this report is appropriate to a declaration of conformity by the manufacturer within the context of system 3 attestation of conformity and CE marking under the Construction Products Regulation.

The test laboratory has, therefore, played no part in sampling the product for the test, although it holds appropriate references, supplied by the manufacturer, to provide for traceability of samples tested.

BASEC Report No: KCPR1206-2 Classification

Field of application

This classification is valid for the power cables described in 'Sample details' and listed below as determined in the extended application process according to PD-CLC-TS 50576-2016.

Brand Name	Cable Identification	Conductor size	Reaction to Fire Classification
Shenzhen Biadi Technology Co., Ltd	UTP CAT6 PVC	23AWG	E _{ca}

This classification is valid for cables for general applications in construction works subject to reaction to fire requirements.

Limitations

This classification will be valid whilst;

- The test methods remain unchanged,
- The product standard or technical approval remains unchanged,
- Constructional or material modifications do not exceed limits of the field of application.

The manufacturer has made a declaration, which is held on file, which the product placed in the marketplace, named in product description section of this report and produced at the manufacturing plants listed therein, is exactly the same as the product that was tested.

This classification document does not represent type approval or certification of the product.
